## Education

### Carnegie Mellon University

Pittsburgh, PA

#### B.S. in Information Systems, Minors in Human-Computer Interaction and AI

May 2029

GPA: 3.5, Dietrich College Dean's List (Fall 2025)

Relevant Coursework: Introduction to Data Structures (In Progress), Database Design and Development (In Progress), Fundamentals of Programming and CS, Methods of Statistics and Data Science, Matrices and Linear Transformations

## Skills

Python, HTML, Tailwind CSS, Javascript, AI-assisted coding, High-fidelity prototyping, Figma, R, Google Apps Script

## Experience

### CMU CS Academy, Research Assistant

May 2026 - Present

- Led monthly live Professional Development (PD) sessions to train K-12 educators on the CMU CS Academy Python curriculum and platform features
- Developed asynchronous educator resources by creating targeted 5-minute instructional videos on core CS concepts to support self-paced educator onboarding

### CMU Human-Computer Interaction Institute (HCII), Research Assistant

January 2026 - Present

- Created an automated Inter-Rater Reliability (IRR) pipeline in Google Apps Script, dynamically calculating batch-wise and cumulative Cohen's Kappa scores across multiple labelers
- Delivered a data-driven analysis of Yiya AirVoice call usage across 10+ metrics by conducting quantitative analysis and data visualization in Python using Google Colab
- Streamlined data processing by writing a custom script to segment 1,064 chat transcripts into learner-AI turn-pairs and automate the linkage of 500+ AI-tutoring call records

### CMU Design for America, Team Member

September 2025 - April 2026

- Executed human-centered design (HCD) research with team members for Fortyx80 (Pittsburgh Technology Council) by conducting stakeholder interviews, site visits, and analysis to identify gaps with data collection
- Helped develop a multi-stage data collection system using pre/post, mentor, and alumni surveys, along with a results dashboard, to help Fortyx80 measure key metrics for grant applications

### AT&T, Entrepreneurship Mentee

September 2024 - January 2025

- Co-created a prototype and business pitch for Shrine® GPS, a device to improve hikers' safety
- Integrated partnerships, value propositions, and marketing plans into our product concept

## Projects

### Personal Website

April 2026 - Present

- Designed and developed a responsive portfolio site using React, Javascript, and Tailwind CSS to showcase experience, education, and projects with Figma wireframes

### Pay-to-Paint

November 2025 - December 2025

- Built a multi-screen "Color By Numbers" spinoff game in Python using cmu\_graphics, implementing a coin-collecting minigame, in-game shop, and interactive paint-by-number canvas

## Leadership

### Dietrich Student Advisory Board

August 2025 - Present

- Assisting in the planning and running of student-focused activities for the Dietrich College at CMU
- Coordinated logistics for "Dietrich Day" and "Dietrich Ball", including decorations, food vendors, activities, and outreach

### Girls Who Code Teaching Assistant

September 2025 - January 2026

- Taught middle school girls fundamental Python concepts, debugged code, and answered students' questions
